Summary

Associate AI Developer passionate about building intelligent, user-centric solutions that make technology more accessible, efficient, and impactful. Core strengths in AI-powered application development, automation, and integrating smart features. Working across models, tools, and modern development frameworks to turn complex challenges into simple, elegant solutions.

Education

Savitribai Phule Pune University, Bachelor of Engineering in Computer Science – Pune, India Sept 2023 – May 2027
• Pursuing Computer Science specialization with focus on AI and software development

Priyadarshini School and Junior College, Senior Secondary Education in Science – Pune, India Apr 2021 – Apr 2023

Experience

Associate AI Developer, Better Software – India Dec 2025 – Feb 2026

- Building intelligent, scalable, and user-centric AI features using rapid development tools like Lovable to deliver high-impact solutions quickly
- Integrating AI models, automating workflows, and creating smart assistants that help businesses solve real-world problems
- Experimenting with cutting-edge AI technologies, optimizing performance, and collaborating with product and engineering teams to ship production-ready AI solutions with speed and efficiency

Projects

Digital Labour Chowk 2024-2025

- India's first AI-powered, safety-verified labor marketplace featuring AI sobriety verification, worker-buyer matching, community tools, and financial inclusion support
- Built comprehensive platform addressing real-world labor market challenges with AI-driven solutions

KISANDHAN – Smart Agri Platform 2024

- AI-driven agriculture platform providing crop disease detection, real-time market prices, MSP updates, procurement center locations, voice assistance, and government scheme navigation
- Live at kisandhan.netlify.app

Rentiverse Jan 2025

- Rental management application developed during Odoo Hackathon 2025 as finalist with Team Bit Benders
- Enables property listings, tenant management, and streamlined rental workflows

PhishGuard 2024

- Cybersecurity application detecting phishing URLs and emails using pattern analysis and machine learning techniques to improve user security

Smart ITR Chatbot (Tax Mate) 2024

- React-based conversational chatbot recommending ITR forms based on income and assisting users with Income Tax Return queries and filing guidance

Hackathons

Odoo India Hackathon Jan 2025

- National Finalist with Team Bit Benders as Team Leader
- Developed Rentiverse rental management platform

INNERVE 9.0 2025

- National Hackathon Finalist with Team Bit Benders as Team Leader
- Hosted by AIT Pune

InnoVyuH Hackathon 2025 Jan 2025

- Participated as developer in Team Supreme
- Organized by Google Developer Groups at MIT ACSC, Alandi

Skills

Programming & Development: Python, C Programming, React, JavaScript, Lovable Development, n8n Workflow Automation, Chrome Extension Development

AI & Automation: AI Application Development, Prompt Engineering, AI Model Integration, Conversational AI, Workflow Automation

Soft Skills: Communication, Problem-solving, Time Management, Leadership, Team Collaboration
